## Advanced Food Processing technology from HRS PSL showcased at International FoodTec India 2015, New Delhi

UHT Sterilizer, developed specifically for dairy & beverage applications, is based on the principle of ultra heat treatment sterilization. The system ensures desired heating cooling temperatures, product holding times and enables further input to desired packaging line. UHT treatment to products can give increased shelf life at ambient temperature when aseptically packed.

Both products have received a very good response and owing to their superior technology have generated interest with well known multinational and Indian food companies including Varun Beverages, Parle Agro, Schreiber, Jadli Foods, Leon foods, and many more.

Cutting edge technology will play a dominant role in ensuring high quality standards for the end product and reduced cost of production. HRS has established its credibility through process engineering in critical application areas in viscous pulpy products, particulates, and diges
