

HRS emphasizes the role of technology in shaping the Indian Food Processing Industry At International FoodTec India 2014

Created: Thursday, 20 November 2014 07:39

HRS Process Systems Ltd. (HRS), part of HRS Group, UK recently participated in the 9th International FoodTec India 2014 from 14th- 16th November, 2014 at Bombay Exhibition Center, Mumbai. The company emphasized the role of innovative technology for food processing while displaying the latest additions to the product range, HRS Monobloc Steriliser and UHT Steriliser.

A recent FICCI report on the Indian Food Processing Industry stated that, in 2012, the \$200 billion industry made a significant contribution to economic and social growth, employing more than 3.1 million people in organized segments and micro, small, and medium-sized enterprises (MSMEs), with a significant impact on local economies. It is

estimated that the share of processed & packaged foods will increase to over 40% of overall intake by 2025-2030 at a growth rate of over 15% CAGR.

HRS is one of the leading companies supplying the latest technology in food processing sector, focusing on processing of fruits, beverages, ready-to-eat food, milk and milk based products, nutraceuticals and probiotics. Their knowledge and expertise has enabled processors to change from conventional to more advanced processing technology with better quality and production at lower cost.

"The Indian food processing sector is poised for dramatic shifts in consumption patterns. The emergence of these new market demands necessitates a shift towards processed foods and heralds an unprecedented growth opportunity for the processed food industry over the next 7 – 10 years. We at HRS believe, with our process expertise, cutting edge technologies, products tailor-made to the food processing industry and impeccable services support are uniquely positioned to help businesses leverage this huge shift in demand," said Mr. V Gokuldas, Managing Director, HRS Process Systems Ltd.

At International FoodTec 2014 HRS exhibited superior solutions for the fruit based beverage and pulp processing industry. HRS' clients such as Parle Agro, Innovative Cuisine, Pepsico, Varun Beverages, Field Fresh (Del Monte), ITC foods, Prabhat Dairy, and many more prestigious companies visited this event. The highlight for this event was the HRS Monobloc Steriliser, a complete system for aseptic sterilization and filling of fruit pulp, the UHT Steriliser and Nutraceutical processing systems for milk, milk products, infant food substitutes and probiotic health supplements.
