

HRS brings tech for food sector: HRS Process Systems Ltd, part of HRS Group UK, has brought to India HRS ParaDice, designed specifically for value added processing in the food sector. V Gokuldas, managing director of the company said HRS ParaDice is capable of processing fruit and vegetable dices without any kind of breakage which is an important criterion for the processors. The system can also be used for blanching of vegetables, pasteurisation and chilling of ready-to-eat fruits, Gokuldas added.
