

Advanced food processing technology from HRS PSL showcased at International FoodTec India 2015, New Delhi

The event also saw many visitors from the snack food industry who showed interest in HRS products and solutions; viz, the range of energy efficient Ecoflux* corrugated tube heat exchanger, HRS Funke plate heat exchanger and heat exchanger based systems.

HRS Process Systems (HRS PSL) participated in the 10th International FoodTec India 2015 from 14th- 16th Sept, 2015 at Pragati Maidan, New Delhi. The company emphasized the role of innovative technology for food processing while displaying the latest additions to the product range, HRS Monobloc Sterilizer and UHT Sterilizer.

To engage with a wider spectrum of the industry at the 10th edition of International FoodTec 2015, HRS exhibited its latest technology in food processing sector along with the main range of heat exchangers, preheater, pasteurisers, evaporators and beverage processing lines. The event also saw many visitors from the snack food industry who showed interest in HRS products and solutions; viz, the range of energy efficient Ecoflux* corrugated tube heat exchanger, HRS Funke plate heat exchanger and heat exchanger based systems.

All products have received a very good response and owing to their superior technology have generated interest with more than 200 visitors from well known multinational and Indian food companies including Varun Beverages, Parle Agro, Schreiber, Jadli Foods, Leon foods, and snack food companies like Haldiram's, Bikaji, Flavorite and many more.

HRS Process Systems Ltd. Overview:

HRS Process Systems Ltd., (HRS PSL) part of UK based HRS Group, is one of the leading heat transfer specialist that operates at the forefront of thermal processing technology. Established in 2003, with headquarters in Pune, HRS PSL has marketing offices spread across major metro cities of India along with the group companies in UK, Spain, USA, Peru, UAE and Malaysia.

HRS PSL offers effective heat transfer solutions for an extensive range of processing applications across a spectrum of industry sectors like Chemical, Petrochemicals/Oil & Gas, Pharmaceutical, Oil & Fats, Fertilizer, Cement, Steel, Power, Agro Chemical, OEM (Original Equipment Manufacturers), Paint, Paper & Pulp, Textile, Automotive, Sugar, Distillery & Breweries, Dairy, Food & Beverage, Nutraceuticals among others. Pioneers in the revolutionary corrugated tube technology for the process industry, HRS PSL offers innovative technology of international standard for thermal processing like corrugated tube heat exchangers, plate heat exchangers, hot water systems, evaporators, systems for food/fruit/beverage processing, CIP systems, aseptic processing and filling technologies.

HRS PSL's Snapshot of key activities:

Steel Industry witnessed HRS energy efficient heat transfer solutions at RAFTS 2015!!! HRS Process Systems Ltd. been a part of 2nd International Conference on Rolling And Finishing Technology of Steel 2015 (RAFTS 2015) held at Ispat Bhavan, SAIL, Ranchi from 8-10 Sept 2015 as silver sponsor. Witnessing emerging technologies in rolling mill many renowned players in steel industry like SAIL, Jindal Steel, Siemens VAI Ltd, Mecon Ltd, NMDC Ltd, SMS group etc. graced the event by their presence.

Knowing the significance of energy efficiency and quality production in steel industry HRS displayed Ecoflux* Corrugated Tube Heat Exchanger, HRS Funke Plate Heat Exchangers and HRS Heat Exchanger based Systems which are proved to be beneficial for many processes in steel industry. HRS Skid Mounted Acid Heating System and Emulsion circuit reheating System were the highlight of the event.
